NEWTECH, SRL - VERIZON, Sto_Dgo_10/15_Current.

Sencha Developer; On SMD project, we develop the detail view Power Search module, it's related to find information from XML request and show it on a web application. This module filter the data, list it and show a detail view from the row selected. This application was develop on EXT JS.

Unit Testing; On VEC 2.0, we use jmockit and testunit plugging in order to test the xml request and response code. On eclipse IDE some package were tested, checked and analyzed for the SMD java application.

Weblogic deployment; Since java code located on the local environment, weblogic communicate, compile and deploy every component needed to deliver on NODE JS web server locally. Developing on Java, Javascript, EXTJS, CSS, HTML, etc. Developing different programming code at same time. Using SCRUM methodology.

ASOCIACION POPULAR DE AHORROS Y PRESTAMOS – APAP, Sto_Dgo_11/14_09/15. Core Banking

Application Development; Oracle form, report and PL-SQL development, they use a core banking called aBanks, on site fixing defects related to the application core, develop interface, implement stored procedure, trigger and creation of new functionality giving good solution to the entire banking company.

TECNOCOM PAYMENT PROCCESING PROCECARD Sto_Dgo_11/12_07/14. Core Banking

DBA ORACLE PRODUCTION; Oracle Data base administration, managing the whole production database, creation, installation, upgrade y patches. User and schema's admin, storage responsible on HD and Tape. Backup and monitoring supervisor. All task of DBA.

Application development in PL-SQL for migration project.
Programming solution for all environments from test to production, in order to get ahead with new core banking.

Responsible DataGuard; Dataguard admin, installation, implementation, configuration on dataguard, monitoring, setting, maintain on storage device physical and logically. In the new core banking, we add a new module called Dataguard Datacompression it's transfer archivelog from production database to standby database.

E D U C A T I O N

Instituto Tecnológico de las Américas (ITLA) Sto. Dgo. 01/14

Advance Microsoft C# MVC programming course.

Instituto Tecnológico de las Américas (ITLA) Sto. Dgo. 09/13

Java and object oriented programming cource.

ACM ICPC PROGRAMMING COMPETITION (PUCMM) Stgo. 05/13

Participation on Programming challenge getting the first place on internal college competition.

Instituto Tecnológico de las Américas (ITLA) Sto. Dgo. 01/13

Oracle DBA Database cource.

Instituto de Formación Técnico Profesional (INFOTEP) Sto. Dgo. 08/11

ISO 9001 Standard cource.

Instituto Tecnológico de las Américas (ITLA) Sto. Dgo. 01/10

C# software development cource.

Instituto Tecnológico de las Américas (ITLA) Sto. Dgo. 01/09

Oracle developer base de datos on **Oracle 10g**.

Oracle Forms Developer by Pearson PTR Education. 11/08

Application developer course on **Oracle Forms Builder**.

Oracle Reports Developer by Oracle University. 09/08

Report developer course on **Oracle Report Builder** .

Pontificia universidad Católica Madre y Maestra Sto. Dgo. 01/06

Nineth semester on Computer System.

Instituto Tecnológico de las Américas ITLA Boca Chica_DR 02/05-12/05

English course.

New Horizons College Sto. Dgo. DR 11/05

Object oriented programming.

CAPSCON DOMINICANA Sto. Dgo. DR 01/05-12/05

Transact SQL Server; Management of Data Base. Borland University; Delphi.net, ASP.net

3rd INTERNATIONAL TECHNOLOGY SYMPOSIUM Juan Dolio D.R. 2005
Four days conference days regarding wireless, super-computer and web security.
